

DATA ANALYTICS PROCESS

Applications in Real life scenario Case Study

AGENDA

Example 1: Going to the Gym

- **PLAN** : Firstly, I need to decide why should I go to the gym and whether to bulk my body or to Reduce the fat or to get into shape like a bodybuilder or be healthy Because each of them will have separate training.
- **PREPARE:** Next, I need to find nearby Gym centers and I should mentally prepare how many months should I go to the Gym and if I have more the money I go for personal trainee otherwise I do it by myself, Budget for the gym membership.

- **PROCESS:** A proper diet should be maintained it contains what type of food should be taken and whatnot. For suppose I am doing all these things myself and going to the gym daily.
- **ANALYZE:** After a few months I will check my body condition and maintain the proper diet or not and consistent or not. If any of these won't work, I will take personal coaching for betterment.
- **SHARE:** Now you can communicate with the personal coach what are all the requirements you should have, and then the personal trainee perfectly trains you.
- **ACT** : By listening to the personal Trainee, you should do the things to get the results.

EXAMPLE 2: SELECTING THE SUITABLE GRADUATE COLLEGE

- **PLAN** : Engineer, I need to decide what I want to become in my life whether it is a government job or an engineer.
If I choose Engineer, I need to join a Btech college.
- **PREPARE:** Then I should prepare for competitive exams like JEE, CUCET, Private University exams , State exams to get a seat in a well-known college.
Then I should join coaching centers to prepare.
- **PROCESS:** After preparing for the exam, I should write the exams
After securing a good rank. And it's time for Web options to select the college.

- **Analyze:** For web options, one should make a list of colleges by analyzing the NIRF ranking, Infrastructure, placement statistics, and fees and culture.
- **Share** : Communicate with family, mentors, or friends to get feedback about the list you made.
- **Act** : Finally, apply to the selected list of colleges in the Web options on the respective exam website. Finally, you can get the best college

**thank
you!**
